

# **COMPETITION FOR TWO TOP-UP FELLOWSHIPS**

## **UNICREDIT & UNIVERSITIES FOSCOLO EUROPE**

**7<sup>th</sup> Edition – year 2015**  
**Academic years 2016/17/18**

### **Article 1 – General rules**

UniCredit & Universities Foscolo Foundation announces the competition for **two 3-year top-up fellowships** in economic and financial subjects, in memory of the former chairman of Banco di Roma, to be assigned to the **two best departments or research institutes in Economics or Finance** participating to the PhD job markets (US job market or any equivalent organization in Europe) in 2015/16.

Main objective of this competition is to **attract and retain in Europe** (EU UniCredit perimeter<sup>1</sup>) **outstanding PhD graduates** that might otherwise choose to begin and develop their career overseas (outside EU UniCredit perimeter). It has become progressively difficult for the best European institutions to compete with the US institutions that offer attractive arrangements that enable early career researchers to focus on their research. The availability of 3-year top-up post-doctoral fellowships would go towards levelling the playing field by **enabling also the European Universities to offer best new graduates on the job market a competitive package**. By offering such top-up fellowships, an institution can greatly enhance its ability to recruit the best talents.

The competition is **open to all departments in Economics or Finance** (or related fields) from any university or research institute of the 17 countries where UniCredit operates<sup>1</sup> **which will participate to the job markets in 2015/16** in order to **offer a tenure track position** or post-doc position to outstanding job market candidates. In very special cases post-doc positions with non-explicit tenure track could be considered.

### **Article 2 - Applications Procedure and Deadline**

University departments or research institutes may only apply online using the application available on the Foundation's website at <http://www.unicreditanduniversities.eu>. Documentation accompanying the application must be submitted exclusively online in PDF format and must be written in English.

Applications must be received by the compulsory deadline of **September 30, 2015**. Failure to do so may result in the exclusion of the department from the competition. As soon as the procedure will be considered completed and the deadline closed, **the candidate departments will receive via e-mail a confirmation message confirming the acceptance of the application**.

Applications **must be accompanied by the following documents** (in PDF format). Failure to do so may result in the exclusion from the competition.

1. a description of the department applying to the competition with special emphasis on the governance of the international recruitment process
2. one report of the department track record with the post-docs/assistant professors employed in the last 5 years, including their updated CVs, with particular attention to international hiring
3. description of the department strategy, which must include information on the salary and other contractual terms that will be offered to the job market candidate to be complemented by the foundation fellowship
4. a declaration of consent to handling of the candidate departments' data pursuant to Italian Legislative Decree 196/2003.

### **Article 3 - Scientific Committee**

The **Scientific Committee** will be responsible for the selection procedure and **will identify the two winning departments of the top-up fellowship**. The Scientific Committee is appointed by the Foundation's Board of Directors and is composed of at least five members among experts in economics and finance from the main European countries.

In assessing candidate departments, the Scientific Committee will take into account their track records and also their strategy report. The **prizes will be assigned according to merit to the two best performing departments**. One of the prizes, however, could be addressed to award a comparatively lower performing department, but with a strongly innovative strategy.

The top-up fellowships will be awarded by the Chairman of the Foundation, on the basis of the final judgment of the Scientific Committee by **December 1, 2015**. The Foundation awards the departments and delegates them to appoint the recipients of the top-up fellowship. The **winning departments must notify the Foundation of the names of the top-up recipients by May, 31 2016**.

### **Article 4 – Fellowship Amount, Duration, and Renewals**

The top-up fellowships will start on **October 1, 2016**. Each top-up fellowship is worth **€ 50,000 per year** and has a **3-year duration**. The Foundation will pay the prize directly to the winning departments in a unique annual installment. **This top-up fellowship complements the salary and contractual terms of the standard tenure track assistant professorships** and is awarded to the each institution at the same time as a recruitment for such positions.

The recipients must have been appointed from the PhD job markets 2015/16 to an assistant professorship in the winning institution. The fellowship should be recognized as complementary to the salary and the contractual terms.

This support will name an existing position as the **UniCredit & Universities Top-Up Fellowship**. The Foundation will be acknowledged in appropriate University/department publications, websites and reports as the UniCredit & Universities Foundation. The recipients of the top-up fellowships are selected independently in each institution and they will be considered as **UniCredit & Universities fellows**.

If a winning department is unable to assign the fellowship to a recipient, at discretion the Foundation may allow the department to use the fellowship in the following year.

In order for the foundation to monitor the success of this initiative, by the end of September of each year, the department should produce a report on the progress of the recipient research work, attaching the assessment of the Head of the department.

### **Article 5 – Cooperation with UniCredit Companies**

UniCredit may, at its discretion, offer a collaboration to the fellows (during the fellowship period at the European university) with Group companies on subjects of interest to the Group, related to the fellow's areas of research.

### **Article 6 – Acceptance of the Fellowship Terms and Conditions**

**Taking part in the competition entails unconditional acceptance of all the articles of this notice.**

Milan, June 30<sup>th</sup> 2015

<sup>1</sup> The UniCredit EU perimeter includes the following countries: Austria, Azerbaijan, Bosnia and Herzegovina, Bulgaria, Croatia, the Czech Republic, Germany, Hungary, Italy, Poland, Romania, Russia, Serbia, Slovakia, Slovenia, Turkey and Ukraine.
